

IQS Research Seeking Data Collections Contractors

IQS Research is a 14-year old market research and data analytics firm located in Louisville, Kentucky. We are currently contracting individuals for a short-term job opportunity this May. Key details are as follows:

308 N. Evergreen Rd.
Suite 200
Louisville, KY
40243

- Individuals will conduct in-person surveys May 6 – 10 and May 13 – 17.
- There is no sales component to this project. The individuals completing these surveys currently use the service that they are being asked to evaluate, and they will receive an incentive for completing the questionnaire and sharing their feedback.
- Most shifts will run for approximately three-hours, primarily taking place from 7 - 10 am or 3:30 – 6:30 pm, though some mid-day and late evening shifts will be available as well.
- Within the parameters above, IQS is flexible in designing a shift schedule that meets an individual contractor's needs.
- Surveys will be conducted at various locations throughout the Metro Louisville area, and the daily starting location will vary. Given this, individuals with access to transportation are most suited for the position.
- Contractors will be paid \$15/hour for their work.

Necessary characteristics of the successful contractor include:

- Being personable (friendly, not pushy)
- Well spoken/good communicator
- Not afraid to approach people
- Good appearance
- Detail oriented
